

(Continued from Fourth Page.)

little tired of having their representatives abroad abused by Democratic newspapers and politicians for no better reason than because they have upheld the authority and dignity of the United States. It was thus that Mr. Egan was misused, while with great sagacity, moderation and good sense he was endeavoring to compose our difficulties with Chile. It is getting to be characteristic of the Democratic party to show distrust of any diplomatic officer of the Government who seems to think the American flag a significant emblem. Minister Stevens is accused of encouraging the revolution in Hawaii, whereas it is notorious that he was absent from the capital when it occurred, that he had been absent for ten days, that the revolution was precipitated by Queen Liliuokalani's arbitrary and unlawful conduct in attempting to promulgate a new Constitution, seizing for herself absolute power, and that she took the occasion of Minister Stevens' absence as an opportunity for the performance of this act. His recognition of the Provisional Government was prompt, but its promptness was more than justified by the similar action of every other foreign representative except England's, and that was not long delayed. The fact that Minister Stevens' opinions were frequently expressed to the Provisional Government concerning the administration of affairs pending the negotiation at Washington was the necessary result of the appeal for annexation, and he would have been false to his trust had he failed to see to it that nothing was done prejudicial to annexation, and that the conduct of the affairs of the Islands was such as would make the situation acceptable to the American Government in case Commissioner Thurston's negotiation was prosecuted to a successful conclusion.

Beyond this Minister Stevens has done nothing, and it is a national reproach that President Cleveland should have humiliated him by sending out another representative to inquire into his acts. They were acts that needed not inquiry, but confirmation; not criticism, but applause. It is to the lasting credit of President Harrison and his Secretary of the Navy that American diplomatic and naval officers during the last administration were made to know that in being Americans and in doing their duty they were expressing the spirit and wishes of their Government. The President who examines all the acts of an American Minister in the desire and effort to prove that his zeal for his country is an offense to the American people understands them poorly. Minister Stevens may regret from public considerations the mistaken policy which has involved his own ill-treatment and the injury of American interests in Hawaii, but he has little reason to regret it on his own account. The American nation at large approves his wise, discreet and truly American conduct.—*New York Tribune* (May).

## HAD TOO MANY IRONS.

Failure of Ex-Secretary Charles Foster of Ohio.

FOSTORIA (O.), May 26.—The business world was startled to-day by the news that ex-Secretary of the Treasury Charles Foster had failed and had turned his heavy financial interests over to an assignee. The latter is J. B. Goulet, a prominent banker of Bucyrus, and a warm friend of Foster. The liabilities are given out by Foster as being \$600,000 and the assets about the same.

At an early hour this morning the bank of Foster & Co. was closed on an attachment of \$3200 in favor of the Isaac Harter Milling Company, and at the same time the wholesale grocery house of Davis & Foster was closed by another attachment. The news spread rapidly, and soon the streets were filled with people anxious to learn the extent of the calamity. The assignment of Foster was the signal for the assignment of a number of concerns in which he was interested. The brass and iron works here was one. The liabilities and assets of this company are included in Foster's personal statement. The Malborough Calced Ware and the Window Glass Company, concerns backed by Foster, also failed.

The loss to business men who were depositors in the bank is one of the deplorable features of the crash, but it is confidently believed that none of them will suffer to an extent that will cause them to go under. A run was made on the Mechanics' Savings Bank this morning as soon as its doors were opened, but the demands were promptly met. The assignment of Davis & Foster's wholesale grocery house will probably be the direct cause of the failure of a number of grocery concerns in the State.

## YIELD TO POWER.

Balmacedists Make Their Peace With Montt.

NEW YORK, May 28.—The *Herald's* correspondent at Valparaiso cables: All the followers of Dictator Balmaceda now in Chile have made peace with the Chilean Government. This is the result of the clemency shown Senator Briceno, one of the prisoners condemned to be put to death for complicity in plots to overthrow the Government last April, and whose life was saved by the action of President Montt and the Council of State.

A letter indicating a desire for peace was to-day handed President Montt. The letter was signed by all the leaders of the Balmaceda faction in Chile. In this document the Balmacedists declare that in consideration of the clemency shown Senator Briceno they desire now to discontinue all party feuds and to obliterate all past differences. The signers of the letter declare that they are satisfied with the policy of President Montt and the Government and will give them their free and hearty support. They promise to work for the

common cause of restoring Chile to her former prosperous condition.

One effect of the letter from the leaders of the Balmaceda faction will be the restoration to their old positions of the naval officers who followed the flag of the dictator.
